

THE PROFESSIONALS CHOICE FOR LANDSCAPE STONE

June Newsletter

Summertime is here! Are you ready to rock?

Water-wise Designs

Have you considered the importance of stone to help reduce irrigation evaporation?

As we enter the warm months of summer, our awareness increases for being water-wise in a drought sensitive Southern California.

Learn the benefits to make you the expert.

Day in the Life at DSS

We were proud to be a part of an important outreach project, serving TERI, a non-profit organization that helps people with special needs. In partnership with the California Landscape Contractors Association, DSS donated 50 tons of decomposed granite to provide the paving surface for an edible garden at one of the group homes in North County. Because of this teaching, edible garden, students will be provided with job opportunities to support their program as students start their own enterprises selling produce that they grow. Thank you CLCA and TERI for the opportunity to give back to our community!

Client/Project Spotlight

A not-so-typical application of stone was used as a great deterrent to pedestrians and potential loiterers at the Blue Line rail in Long Beach, CA. Utilizing our Durango Rubble product in an 6"-12" size, RJM Design Group specified this sharp angular stone, which was installed by STL Landscape through a grouted-in application. So many different stone products, coupled with unique applications can be the solution for a lot of design challenges. Utilize our [design gallery](#) for ideas and ask us how we can help!

DSS is Hiring!

Come Join Our Team!
We are in search of an AR/AP
Administrative Assistant.

We invite you to read the full job

description at the link below.

Please submit résumé and cover letter to Mary Culbert :
mary@decorativestonesolutions.com

Clearance Stone - Still Available!

Designing on a budget?
We have miscellaneous inventory that needs a forever home!

- Flagstone
- Dimensional Travertine
- Cobble
- Natural Thin Stone Veneer
- Wall Rock
- Rubble
- Lava Rock
- Boulders
- Bricks, pavers, and more

We inherited these products and are not able to sell them through our normal distributor channel. They are only taking up space and we need them gone.

Here is the [full list](#) of what is available for will call at our Menifee, CA location.

File name in Dropbox (link) will mention how many pallets we have of the item. List is updated daily. If you see a picture of it, we still have it.

***\$50 per pallet** is an absolute steal as some of these items retail for \$400-\$500 per pallet.

Items must be purchased in full pallet quantities

*These are all one offs. We will never have more of these items, so do not contact us asking for more after purchase.

***Please email, call, or text (760) 566-9428 us to set up an appointment to view these items.** We are not a retail location set up to handle walk in customers.

*All sales are absolutely final, no returns or refunds of any kind.

*Cash only sales, no delivery option.

*Many of the wooden pallets are unsafe to load with our forklift and will need to be hand loaded by buyer.

We do have minimal staff willing to assist if time allows.

We don't pretend to be travertine experts and we are probably butchering some of the names and terms, but we do know that they are a hell of a deal!

Spread the word: Please share with wholesale and independent contractors, new home buyers and backyard fixer uppers!

CLCA Beautification Awards

The California Landscape Contractors Association will host their annual Beautification Awards for the Los Angeles/San Gabriel Valley on July 13, 2019. DSS is excited to be a Major Award Sponsor for one of these fabulous designs.
